Program Description

Mental Health Assessment, Treatment and Counseling: Cope Behavioral Services understands, and is committed to working with individuals that may suffer from problems associated with mental illness. Individuals that have been determined dual diagnosed by a qualified mental health professional may be referred for services related to substance abuse, and co-occurring illnesses. This will apply to the Wisconsin Works W-2t population that have presented a medical incapacitation form signed by a mental health professional clearly outlining what the individual being referred specific diagnosis may be. Cope Behavioral Services, Inc. Clinician will in turn review the medical incapacity form, and determine the level of care based upon recommendations of the health care professional providing the evaluation.
